

THE CYPRUS INSTITUTE OF NEUROLOGY AND GENETICS

WE' RE HIRING!

SENIOR CLINICAL GENETICIST

The Cyprus Institute of Neurology and Genetics (CING), is an internationally recognised Centre of Excellence offering specialised services, translational research and postgraduate education in the fields of neurology, genetics, biomedical and medical sciences. This is probably the most successful model nowadays as it combines education, service and innovative research activities in one centre, providing major medical benefits to the people, society and the country. CING was one of the first, and today one of the best Institutes in Europe where postgraduate education, research and service have been successfully combined.

Our main aim is to improve continuously in order to lessen the suffering of patients and their families and prevent diseases through patient care, research and educational programs on neurological and genetic conditions such as muscular dystrophy, multiple sclerosis, epilepsy, chromosomal abnormalities and all other aspects of molecular biology and genetics such as thalassaemia, molecular virology, mental retardation, cardiovascular disease, stroke, cystic fibrosis and neurogenetics. Moreover, CING plays a key role in the fight against crime by providing specialized DNA services to the police authorities and expert court testimony for criminal and civil investigations.

We're expanding our team of medical professionals and are looking for people, who share our vision and who will become part of our core team dedicated to upgrade the quality of life of our patients. CING is an excellent opportunity for medical professionals who are interested in combining medical practice with research and education.

We are currently seeking to recruit a Senior Clinical Geneticist/Department Head to head the Clinical Genetics & Genomics Department of the Institute, based at the Institute's premises in Nicosia, Cyprus.

The Department, acts as a reference centre for the whole of Cyprus and provides outpatients and inpatient care, diagnosis, management and counselling on the whole spectrum of genetic diseases. It's an official member of the European Reference Networks, ERN-ITHACA and additionally, several research projects are carried out in collaboration with other departments at CING and other hospitals or clinics.

What you will be doing:

The suitable candidate will head the Clinical Genetics & Genomics Department as certified medical doctor trained in the diagnosis, treatment and management of genetic diseases.

Additionally, he/she may engage in research and education. The above position is combined with a faculty position at the appropriate rank commensurate with experience and track record at the post-graduate School of the Institute.

The successful candidate will be accountable to the Chief Executive Officer and Medical Director and he/she will be a member of the Institute's Scientific Council.

What we are seeking:

- An MD degree with a sub specialty in Clinical Genetics; and
- Recognized board certification in Clinical Genetics; and
- License or eligible for license from the Pancyprian Medical Association; and
- A minimum of 6 years of post-graduate training and experience in an accredited medical centre; and
- Knowledge of clinical operations and procedures; and
- Supervisory experience; and
- Command of the Greek and English languages;

What we offer:

- Highly collaborative culture
- A CHKS accredited outpatient and inpatient centre with specialized clinics and laboratories functioning as a national referral centre for neurological disorders
- Participation in the European Reference Networks (ERNs)
- Cutting-edge basic and clinical neuroscience & clinical genetics research and top-notch facilities at the Institute
- Opportunities for advancement as an academic:
 - Research infrastructure and resources are allocated including dedicated lab space and research staff
 - Opportunities to participate in the activities of the post-graduate School of the Institute (supervision of MSc/PhD students and teaching in the School's programs)
- An attractive compensation package and other benefits will be offered to the successful candidate, including a competitive relocation package for people who will be relocating to Cyprus for the purposes of taking up employment at the Institute.

Applications:

Apply now! If you would like to apply or refer a candidate, please forward a detailed CV to clientjobs@cy.ey.com no later than 30/08/22.

All applications will be thoroughly screened and only the most qualified applicants will be contacted. Please note that all applications will be treated in strict confidentiality, ensuring GDPR compliance.
